Better insights and audit support

Better, focused research

Our research is derived from both qualitative and quantitative factors specific to innovation sectors and supported by extensive analytics on the selected guideline companies.

Deep relationships with auditing firms

We work closely with the Big Four accounting and auditing firms, as well as with regional firms around the country, so we can understand and rapidly adapt to changing audit requirements and valuation best practices.

Strict adherence to accepted guidelines

Our opinions adhere to the American Institute of Certified Public Accountants (AICPA) guidelines in enterprise valuation and allocation methodologies, and methodologies approved by both the AICPA Practice Aid and IRS regulations.

Superior service

From startup to exit, we offer a strategic partnership that goes beyond what other advisors offer, and the exceptional service to assist your valuation meets requirements today and in the future.

“The 409A process for a rapidly growing biotech company is both technically challenging and intensified with pressure-packed deadlines. SVB Analytics worked closely with us over a two-year period to proactively plan an information and data-gathering process, drill down into the most significant valuation drivers and review an acceptable approach with our auditors and other stakeholders.”
