

# Foreign Exchange | Private Equity and Venture Capital Overview

SVB's Foreign Exchange team helps CFOs and GPs simplify the complexity of transacting FX. We deliver speed of execution, respond quickly to client opportunities and issues, and share relevant market insights and advice to mitigate the impact of FX risk on fund return performance.

## Why SVB FX

**Accelerated, simplified FX transactions** — From identifying a cross-border investment opportunity to negotiating deal terms and making the final investment commitment, we help CFOs experience seamless start-to-finish FX trade and settlement execution.

**Personal and nimble service** — We are a highly dependable, market segment-focused FX relationship team that leverages SVB's strengths of being faster and closer to clients to deliver great service and coverage.

**Hedge advisory** — The team formulates and delivers comprehensive currency risk management advice, peer industry insight, and strategies tailored to fund transaction-specific deal flow.

Foreign exchange transactions can be highly risky, and losses may occur in short periods of time if there is an adverse movement of exchange rates. Exchange rates can be highly volatile and are impacted by numerous economic, political and social factors, as well as supply and demand and governmental intervention, control and adjustments. Investments in financial instruments carry significant risk, including the possible loss of the principal amount invested. Before entering any foreign exchange transaction, you should obtain advice from your own tax, financial, legal and other advisors, and only make investment decisions on the basis of your own objectives, experience and resources. Opinions expressed are our opinions as of the date of this content only.
